PROFESSIONAL SUMMARY

MERN Stack Intern with hands-on experience building full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Experienced in building REST APIs, JWT-based authentication, and AI-integrated features (Gemini API) such as resume-to-job description skill matching. Currently working as a MERN Stack Intern at Regex Software Services, while consistently strengthening problem-solving skills through Data Structures and Algorithms.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, Redux Toolkit, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, JWT Authentication, bcrypt

Database: MongoDB, Mongoose

Tools: Git, GitHub, Postman, Axios, Cloudinary

Core: Data Structures & Algorithms (DSA)

INTERNSHIP EXPERIENCE

MERN Stack Developer Intern — Regex Software Services (Mar 2026 – Present)

- Developed responsive, reusable React.js UI components by translating business requirements into interactive application features.
- Designed and built REST APIs with Node.js and Express.js to support core application functionality.
- Implemented secure authentication and authorization workflows using JWT and bcrypt password hashing.
- Performed CRUD operations and modeled application data using MongoDB and Mongoose schemas.
- Collaborated using Git and GitHub for version control, code reviews, and feature-branch workflows.
- Explored Next.js for building server-rendered React components to improve page load performance and SEO.

PROJECTS

AuraStay – Hotel Management & Booking Application | [Live Demo](#)

- Built a full-stack hotel and villa booking platform (React.js, Node.js, Express.js, MongoDB) with dynamic search/filtering, real-time room availability, and an end-to-end booking flow with price calculation and coupon application.
- Implemented JWT-based authentication and role-based access control (RBAC) for guests, vendors, hotel staff, and super admins, each with a dedicated dashboard and permission set.
- Designed vendor/staff workflows for listing properties and tracking bookings, plus a super admin panel for platform-wide oversight and approvals.
- Structured RESTful APIs and Mongoose schemas for hotels, rooms, bookings, coupons, and users; built a fully responsive UI with Tailwind CSS for desktop and mobile.

AI Learning Platform – Skill Matcher & Study Assistant | [Live Demo](#)

- Built an AI-powered learning platform (React.js, Node.js, Express.js, MongoDB) featuring a resume-to-job description skill matcher that extracts and compares skills to identify gaps, using the Gemini API to generate learning content for each missing skill.
- Implemented document upload (PDF, DOC, DOCX) with an AI chat assistant that lets users ask questions about their uploaded material and get an instant summary or explanation.
- Built personalized study plans with auto-generated quizzes and flashcards, plus progress-tracking dashboards to help users monitor their preparation over time.
- Implemented JWT authentication, protected routes, and RESTful APIs; added search, sorting, and pagination, with a responsive UI using Axios-based frontend-backend integration.

CERTIFICATIONS

- 30 Days MasterClass in Full Stack Development — NoviTech R&D Private Limited (2025)

EDUCATION

Bachelor of Computer Applications (BCA)

University Commerce College, Jaipur | Completed 2025
